

GREEN DIVIDER
Room Divider
By Louise Hederström

PRODUCT INFORMATION

Green Divider provides a way to incorporate greenery into office environments, open spaces as well as the possibility to create spatiality. The design of Green Divider is flexible and can be placed in different formations or stand alone. The attractive graphic form of Green Divider means it works perfectly well with smaller plants, or even without any greenery.

"I like working graphically and to create expressions in a room. I am very satisfied with the design of the product which allows bigger plants to climb, but also works well without any greenery at all. The divider itself creates a connection to plants with their form", Louise Hederström concludes.

O₂asis sustainability

O₂asis is an assortment of design products which together with greenery and plants improves interiors. To maintain the high quality and sustainability and to keep the best surface a flower pot is always to be used inside the products.
